

# EXPLORING THE EARTH FROM A DISTANCE!

CANADIAN GEOGRAPHIC EDUCATION'S

ONLINE  
Classroom

## Categories:

Landforms and Water Bodies

## Step 1:

Open the [Exploring Earth map](#) on the Canadian Space Agency website.

## Step 2:

Search the Exploring Earth map until you have found all six of these photos!

Photo 1

Photo 2

Photo 3

Photo 4

Photo 5

Photo 6

## Step 3:

Pick one photo from above and read the associated blog on the Exploring Earth website. Answer the following based on your new knowledge:

1. What location is shown in the photo?

2. What feature or phenomenon is shown in the photo?

## ONLINE Classroom

3. Describe two facts you learned while reading the blog.
4. Can you see a connection between the photo you chose and **Earth Day 2020**? Describe how the feature or phenomenon shown in the photo can be linked to environmental protection.
5. Most of these photos were taken by Canadian astronaut David Saint-Jacques, whose biography can be found **here**.
  - a. Where is David Saint-Jacques from?
  - b. Why did he decide to become an astronaut?
  - c. What jobs did he have before becoming an astronaut?
  - d. What is his favourite place on Earth?
6. What is your favourite place on Earth? Why?
