*Explore video game recommendations handpicked by Canadian Geographic Education! Discover fun, captivating video games that offer unique learning opportunities by bridging the worlds of geography and gaming.*

## **Cities: Skylines**

A city-building simulation game suitable for older youth, teaching urban planning and geography.

## **Sid Meier's Civilization VI**

A strategy game that explores world geography, history, and diplomacy, best suited for older teens.

## **Lumino City**

This puzzle adventure game emphasizes renewable energy technologies as players explore a handmade paper and miniature world. Puzzles involve powering locations with renewable energy sources.

## **Toca Nature**

A creative and exploratory game that allows players to shape and explore their natural environment, emphasizing environmental geography and ecosystems.

## **Never Alone**

An atmospheric game that blends cultural awareness and environmental education, featuring a young Iñupiaq girl and her Arctic fox on a quest to restore nature's balance.

## **Beyond Blue**

An ecological education game that provides players with insights into ocean exploration and conservation. It features an in-game encyclopedia showcasing ocean creatures.

## **Alba: A Wildlife Adventure**

A young girl named Alba explores a beautiful island and starts a movement to protect its wildlife.

*Free*

## **Plasticity**

To learn about waste management and recycling, players explore a plastic-ridden world through interactive storytelling and make choices to save it.

## **The Book of Distance**

Follow Canadian-Japanese artist Randall Okita on an interactive virtual pilgrimage through an emotional geography of immigration and family.

## **GeoGuessr**

An online geography game that challenges players to guess the location of Google Street View images.

## **Mini Motorways**

Build a road network, one road at a time, to create a bustling metropolis.
