

Part 1: Reflect on What You Learned

Discuss with your partner or group the most interesting things you learned from the Marine Month presentation(s) you saw:

- What were your top takeaways from the presentation(s) you saw?
- How do you think the role of the organisation(s) you learned about fits into the broader marine industry?
- Why is the marine industry important to your daily life and the lives of all Canadians?

Part 2: Create a Marine Industry Web

Central Hub: Draw or create a central “hub” representing the marine industry.

Branches: Add branches for each marine organisation or job that you’ve learned about.

Connections: Show how these branches might be connected or how they support each other.

Notes/Symbols: Add notes or symbols to represent key roles, functions, or interesting facts.

Part 3: Engage with Marine Industry Partners

If you would like to learn more or get in touch with any of the marine industry partners featured in Marine Month 2025, join us at our Marine Career Expos (see <https://imagine-marine.ca/events-calendar>)! This is an opportunity for marine industry employers and institutions to connect with communities in Canada.

Ships from the Royal Canadian Navy and interactive activities from the Canadian Coast Guard and other marine employers and training institutions will be alongside offering the public the chance to come see what a career onboard or ashore could be. Alternatively, you can reach out to the CMCF on info@imagine-marine.ca for more resources and potential opportunities for employer presentations or engagement.
